

You have found some JOY left by sweet Jackson. A true ray of sunshine and full of love and kindness. Jackson had a rare genetic syndrome that resulted in developmental disabilities and was non-verbal.

While Jackson faced many challenges he was able to accomplish more than anyone thought possible, achieving his goals with great strength and bravery. Unfortunately, Jackson passed away on August 19th, 2021 at the age of 19.

To honor his life and the sweetness he shared, a friend has left a Pufferfish hoping it will make you smile!!

Please take this gift, his favorite toy, and know it carries his zest for travel and things that inspire JOY.

Feel free to take a photo and share your story and how you felt finding his favorite toy:
